According to the NYC Department of Health, all participants must have a completed medical form on file prior to the start of summer camp. Please submit your child's complete medical information form. It's also a good idea to keep extra copies of the medical form for your records. If your child does not have complete medical forms along with immunization records, they may not attend camp.

During the registration process, it is extremely important that families notify the camp if the child has any medical conditions such as, but not limited to, allergies, asthma, diabetes or other conditions.

Additionally, campers must submit all necessary consent forms, including but not limited to:

- Authorized Pick Up
- Emergency Care Consent
